The world's largest cabbage was grown in England in 1865 and weighed 123 pounds!

There are at least 100 different varieties of cabbage grown worldwide.

Cabbage is a dietary staple around the world!

Cabbage is closely related to cauliflower, broccoli, kale, Brussels sprouts, and kohlrabi.

The word 'cabbage' comes from the Latin word for caput and the French word caboché, which both mean 'head'.
